Set a hearing for June 15, 2021 (ESTIMATED TIME: 10 MINUTES) to consider recommendations regarding the Flood Benefit Assessment Program for Fiscal Year 2021-22 as follows:

- a) Consider the introduction (first reading) of an Ordinance (Attachment A) amending Ordinance 3150, the Flood Control Benefit Assessment Ordinance, Relating to Benefit Assessments for Flood Control Services imposing a Flood Control Benefit Assessments for Fiscal Year 2021-22;
- b) Read the title of Ordinance and waive further reading;
- c) Receive and file a Report (Attachment B) regarding Flood Control Benefit Assessment for Fiscal Year 2021-22;
- d) Set a hearing for June 22, 2021 on the administrative agenda to consider the following recommendations:

- i. Make a determination upon each assessment described in the Report filed by the Board at the June 15, 2020 meeting and direct staff to record the Report;
- ii. Adopt the Resolution (Attachment C) confirming Flood Control Benefit Assessment for Fiscal Year 2021-22 and direct staff to record the Resolution;
- iii. Consider adoption (second reading) of an Ordinance amending Ordinance 3150, the Flood Control Benefit Assessment Ordinance, Relating to Benefit Assessments for Flood Control Services imposing Flood Control Benefit Assessments for Fiscal Year 2021-22 (ordinance introduced on June 15, 2020); and
- iv. Find that the assessment revenue will be used for meeting operating expenses, including employee wage rates and fringe benefits, purchasing or leasing supplies, equipment, or materials, meeting financial reserve needs and requirements and obtaining funds for capital projects necessary to maintain service within existing service areas; and that the recalculation and imposition of the annual Flood Control Benefit Assessment are therefore exempt from California Environmental Quality Act pursuant to State CEQA Guidelines Section 15273(a)(1, 2, 3, and 4); and direct staff to file the attached Notice of Exemption (Attachment E) with the Clerk of the Board.

**Summary Text:**

This item is on the agenda in order to set the first hearing to introduce an ordinance entitled, "An Ordinance Amending Ordinance 3150, the Flood Control Benefit Assessment Ordinance, Relating to Benefit Assessments for Flood Control Services" and the second hearing for adoption of the ordinance and resolution confirming the Flood Control Assessment for FY 2021-22. It is proposed that the rates in each Flood Zone be increased by 2.19% for Fiscal Year 2021-22 (table shown below) as determined by the State Department of Finance. This increase represents the Consumer Price Index (CPI) for all urban consumers for Los Angeles, including the counties of Los Angeles, Long Beach, and Anaheim.

The 2021-22 Benefit Assessment Report describes the concept and mechanism of the Benefit Assessment Program and represents the continued need for financing flood control services. The report will be kept on file with the Clerk of the Board until the conclusion of the hearings.

Staff recommends adoption of this ordinance amendment and resolution to continue the current level of flood control services.

**Background:**

The Flood Control Benefit Assessment Program was developed after Proposition 13 passed in 1978, which reduced the District's tax revenue by about 60%. In response to the District's imminent financial situation and the need for supplemental funding, the Board of Directors moved and adopted the Flood Control Benefit Program on March 24, 1980 and began the program in 1980-1981 prior to voter consideration. The Board believed that delaying the decision would have made it impossible to continue maintenance of essential facilities operated by the District and to avoid an increased risk in flooding. On the November 4, 1980 Statewide General Election, the Board placed a ballot measure in each of the Flood Zones to continue the Program.

On November 4, 1980, Santa Barbara County residents voted to approve the levying of benefit assessments in each of the Flood Zones to help pay the cost of providing flood control services. This list of services and programs were identified as program priorities:

- Emergency Response
- Operation and Maintenance
- Storm Emergency Rehabilitation
- Dam Safety
- Debris Control
- Major Repair
- Correction of Flooding and Erosion Problems (new construction)
- Flood Plain Management
- Santa Ynez River Flood Warning System

The priorities established above were based on protection of life, protection of property, safety, economy, public service, and conservation.

The assessment brought the District funding to about 80% of the pre-Proposition 13 revenues. The ordinance that established the assessment program allows for annual increases in assessment rates up to the increase in the CPI for the preceding twelve months.

The CPI increases are intended to equalize service levels year-to-year by stabilizing buying power. The new benefit assessment rates prevent the devaluation of Flood Control District revenues from inflation. The CPI increase approved by the voters preserves the ability to deliver services to the public.

In 1996, a measure was brought back to the voters to increase Benefit Assessment rates above the CPI, and the measure passed only in the South Coast Flood Zone.

**Fiscal and Facilities Impacts:**

Budgeted: Yes

**Fiscal Analysis**

Narrative:

Benefit Assessment rates will generate approximately \$3,584,500 collectively within the Flood Control District's ten flood zones for FY 2021-22 and this revenue was included in the budget.
