10. Section 10.6 "County Approval of Other User Deliveries" is amended and replaced in its entirety as follows:

10.6 County Approval of Other User Deliveries

The Contractor shall not, without the prior written agreement of the County, accept from Other Users Spot Market Materials. It is the intent of the Parties that the County and Contractor shall seek such additional Tonnage but must comply with section 1.130 of this agreement. The arrangements for such additional Spot Market Materials shall have a benefit to the Parties (such as providing tonnage to avoid any Shortfall Charge, or lowering rates charged to the Parties), the per Ton charges or other pricing or other terms included in contractual arrangements for such additional Tonnage must comply with the requirements contained in this section, and be approved by the County prior to execution with Other Users.

A. Maximum Contamination for Source Separated Materials Delivered by Other Users

A characterization of Source Separated Spot Market waste generated by Other Users must be completed within 90 days from the onset of the arrangement to process this material in order to measure its contamination level.

1. Source-Separated Recyclables delivered to the Facility by Other Users must contain no more than 25% (by weight) of contaminants (materials that cannot be recovered and sold as commodities in the recycling market). If contamination exceeds 25%, this material may be treated as MSW and will either be backhauled at full expense of the Other User or charged at the current rate to process MSW. If there are significant changes in the overall recycling market that do not allow an Other User to comply with this requirement, County may modify this requirement after sufficient documentation has been provided.
2. Source-Separated Organics delivered to the Facility by Other Users must contain no more than 25% (by weight) of contaminants (inorganic materials that cannot be digested and composted). If the contamination level exceeds 25%, a higher rate will be charged for processing this material, which must be approved by the County.

B. Public Education and Enforcement

Other Users will be required to conduct general public education programs to educate residents and businesses of what materials are acceptable in containers for source-separated recyclables and source-separated organics. Contractor will provide a list of materials and guidelines that will be included in this public education as well as the frequency of distribution to the public. If the level of contamination in source-separated recyclables and

source-separated organics is close to the maximum allowable threshold, an Other User will be required to conduct targeted public outreach programs, tagging of containers and collection of materials in the tagged containers as solid waste in an effort to reduce the identified contamination.

C. Unacceptable Waste

Contractor will keep material delivered by Other Users segregated from other loads until it is determined that there is no Unacceptable Waste. If Unacceptable Waste is identified in a load from an Other User, Contractor will comply with Section 6.2 (Receipt of Acceptable Material) of this Contract.

D. Facility Capacity

Contractor will monitor the Tonnage of Acceptable Materials delivered to the Facility and if it becomes apparent that the Maximum Annual Capacity may be exceeded for that or future Contract Years, per Section 2.10 E, Contractor shall be obligated to use Reasonable Business Efforts to accept Acceptable Material delivered by the County including accepting less Spot Market Materials.

11. Subsection C of Section 13.2 "Contractor Security and Bonds" is amended and replaced in its entirety as follows:

Section 13.2 Contractor Security and Bonds

C. Operations Bond

Contractor and/or its Primary Subcontractors shall provide one or more performance bond(s), letters of credit or other surety device as may be reasonably required by the County in the aggregate amount of fourteen million eight hundred thirty four thousand three hundred and thirty six dollars (\$14,834,336), the estimated full cost of annual Operations and Maintenance of the Project for the first year of Operations, to secure the Operations and Maintenance of the Project, including ensuring that the Primary Subcontractors receive full payment for services provided, and in a form acceptable to the County as co-beneficiary. Such bond shall be in standard AIA form, and shall be issued by a surety company or companies rated "A" or better per current AM. Best Company ratings and listed in the United States Treasury Department's Circular 570. Such surety shall be an admitted surety in California. Such bond shall be in force as of the Full Operations Date, will be modified as necessary to reflect updated annual cost information as of the Full Operations Date as provided in section 4.9.B, and must remain in force through the Term. As part of the Annual Settlement Process specified in section 10.9, the value of the of the bond will be annually adjusted by CPI-U, or may be modified up or down to reflect changes of greater than ten (10) percent in annual O&M costs.

12. Contractor hereby acknowledges that the adjustments included in the amendments to subsection C of Section 10.2 Construction and Equipment Costs, as set forth in this Sixth Amendment, address all costs and compensation due to Contractor

arising from the delay in construction included in the amended Project Development Schedule (attached hereto as Second Amended Exhibit C), impacts of COVID-19, and any other Unforeseen Circumstances. Upon payment of the amounts stated in Section 10.2 subsection C, Contractor relinquishes any additional claims for extra compensation related to the design, construction and commissioning of the Project.

13. Amended Exhibit C: "Third Amended Project Development Schedule" is replaced in its entirety with the attached, "Amended Exhibit C - Fourth Amended Project Development Schedule," attached hereto as Attachment A
14. Amended Exhibit H: "Second Amended Contractor's Final Pro Forma," is replaced in its entirety with the attached, "Amended Exhibit H – Third Amended Contractor's Final Pro Forma," attached hereto as Attachment B.
