TIME: 1 HR.)

Option 1:

a) Conceptually determine that the Mitigated Negative Declaration, case no. 17NGD-000-00004, is inadequate and that an Environmental Impact Report (EIR) is required because there is substantial evidence in the record supporting a fair argument that the project may have a significant effect on the environment;

c) Conceptually direct staff to prepare an EIR focused on issues associated with evaporative water losses resulting from the proposed project, potential biological resource impacts, and potential flooding impacts to State Highway 166; and to bring the project back to the Planning Commission for further consideration upon completion of the EIR; and

d) Continue the hearing in order to adopt findings that an EIR is required to evaluate the environmental impacts of the proposed project; or

Option 2:

a) Conceptually determine that an EIR is not required at this time because the current evidence in the record does not support that there is substantial evidence of a fair argument that the project as analyzed in the Mitigated Negative Declaration, case no. 17NGD-00000-00004 may have significant effect on the environment;

b) Conceptually approve the appeal, case no. 18APL-00000-00019, thereby reversing the County Planning Commission's action;
